- Equipped with the tools and confidence to tackle complex data challenges and contribute effectively in the field of data science.

Data Analyst

Core Kulture Tribe (Remote)

[Aug 2022 - May 2023]

- Gathered and organized data from various sources, including streaming platforms, sales figures, and social media metrics, to support strategic decision-making.
- Conducted statistical analyses to uncover trends, patterns, and correlations in music consumption, sales, and audience engagement, enhancing understanding of market dynamics.
- Developed comprehensive reports and visualizations to present insights to stakeholders, utilizing tools such as Power BI and Tableau to create actionable business intelligence.
- Monitored and assessed the performance of artists, tracks, and marketing campaigns, offering data-driven recommendations to optimize strategies and improve outcomes.
- Performed in-depth analyses of industry trends and competitor performance to identify opportunities and inform business decisions.
- Ensured the accuracy and reliability of collected and analyzed data, implementing and maintaining high data quality standards.
- Partnered with marketing, sales, and artist management teams to fulfill their data needs, providing insights that supported business goals and strategies.

Power BI Developer/Virtual Assistant

KEBI Intelligence, Glasgow, Scotland. (Remote)

[Nov 2021 - August 2022]

- Developed and maintained interactive dashboards and reports using Power BI.
- Implemented ETL processes to ensure accurate data loading into BI systems.
- Created and managed data models to support various analytics needs.
- Collaborated with cross-functional teams to understand business requirements and translate them into technical specifications.
- Provided support and training to end-users on BI tools and reports.
- Coordinated all meetings with clients and attended to all client requirements.
- Managed general systems administration (Microsoft 365, Microsoft Teams, Power BI, Azure).
- Created ad-hoc reports in Power BI.
- Assisted the CEO with administrative tasks and managed correspondence.
- Develop and maintain Power BI dashboards for various clients, including creating custom visuals and integrating data from multiple sources.
- Provide technical support and troubleshooting for Power BI issues.
- Collaborate with data analysts and business stakeholders to identify reporting requirements and develop actionable insights.
- Ensure data accuracy and integrity by performing regular data validation and quality checks.
- Develop and implement data governance policies and procedures to maintain data security and compliance.

- Train end-users on how to effectively use Power BI for data analysis and reporting.

Data Analyst

Reddington Hospital, Lagos, Nigeria

[Sept 2021 - Feb 2022]

- Analyzed patient and operational data to identify trends and insights.
- Developed and optimized complex SQL queries and stored procedures.
- Created and maintained Power BI dashboards and reports for various departments.
- Conducted data validation and ensured data integrity.
- Assisted in the implementation of data governance policies and procedures.

Field Inspector

Lagos State Government, Lagos, Nigeria.

2018

- Conducted thorough site inspections to identify buildings scheduled for demolition due to land encroachment and trespassing.
- Coordinated with local authorities and demolition teams to facilitate efficient and safe demolition processes.
- Maintained detailed records and reports on inspection findings and demolition statuses.
- Enhanced knowledge of building structures and regulatory compliance through hands-on fieldwork related to land use violations.

Intern, New Towns Development Authority (NTDA)

Lagos State, Nigeria

Oct 2016 - Dec 2016

- Assisted in the implementation of the Lagos State Master Plan, focusing on the decongestion of the Metropolitan Centre and the even development of Lagos State towards the North West, Southwest, and Lekki Axis.
- Supported the development of sustainable communities by participating in planning and infrastructure projects.
- Gained hands-on experience in urban planning, infrastructure development, and regulatory compliance.
- Collaborated with teams to address challenges related to housing, water supply, roads, drainage, electricity, waste disposal, and social infrastructure.
- Contributed to the mission of developing new towns with functional infrastructure, enhancing the quality of life for residents.
